ConcordantOne Tech: NOC services Brochure

NOC services for MSPs

Completely white label, NOC services delivered right from your RMM and PSA

Read More

Run a lean MSP with NOC services

NOC services help MSPs free themselves from routine tasks so they can concentrate on High revenue projects and drive efficiency in their business.

We offer a fixed price, per device NOC service, with no setup fee that too on a monthly subscription basis.

NOC is peace of mind for MSPs

Our MSP Customers wake up every morning with confidence that their clients critical backups have been taken care off and the tickets alerts from yesterday are resolved by the time they step inside office. Further reducing end user interruption and increasing network uptime.

Comprehensive, 24X7 services

Our NOC services are designed to take care of all your RMM alerts and end-point management needs. We monitor your dashboards 24 by 7 and respond to alerts within minutes. Remediate them and close tickets.

NOC package Includes

24 by 7 Monitoring

Patch management

Backup Management

After hour maintenance

Alert remediation

AV management

Performance monitoring

Proactive maintenance

And more…

Target larger customers and kill your competition with NOC services.
